

Teeing Off With a Little Help from TPA

Portable roadways specialist TPA recently assisted event organiser Brand Events, to tee off a brand new golf show at Stoke Park in Buckinghamshire.

'Golf Live' offered keen golfers the opportunity to attend workshops from golf professionals Colin Montgomery, Paul Casey, Ian Pouter and Retief Goosen who, along with world class coaches, provided an insight into how the professionals play. The event also showcased the latest custom fitted equipment and the opportunity to try the kit on the on-site driving range.

TPA ensured that visitors could walk easily through the show by installing pedestrian walkways and hard-standing areas between the different elements of the event.

Si Flannigan, Brand Events Head of Operations, has worked with TPA many times in the past and also works with the company on the Taste Festivals which take place in London and Edinburgh each summer; *"TPA did a great job for us at Golf Live 2010 – as always a well managed, professional project."*

Golf events are nothing new to TPA though, as the company also supplies The Ryder Cup at Celtic Manor, the PGA tournament at Wentworth, the IMG Women's Open at Royal Birkdale and supplied last year's Open at Turnbury.

TPA is currently one of the main suppliers for many of the UK's major outdoor sporting events including the Lawn Tennis Association's activity at the Queen's Club, Edgbaston and Eastbourne and Wimbledon's championships. It will also be installing panels at Royal Ascot and the RHS Hampton Court flower show and many of the leading music festivals. For further information on all TPA's products, simply call 0870 240 2381 for a colour brochure.
