

Bridges

TPA is able to supply a range of bridges to cross a variety of voids including roads, railways or raging torrents! Pedestrian bridges are available to a 45m clear span, and vehicular (100 tonne gross load) to a 20m clear span. Any bridge supplied will fully comply with all current legislative requirements.

- [Bridging the Gap](#)

This bridge was designed to span a 20m gap, and support a 100 tonne capacity crane with an axle weight of 15 tonnes.
- [Access the Experts](#)

Our team of engineers have the experience and know-how to design a solution for your needs.
- [No-Obligation Site Survey](#)

Simply call the Hire Desk or complete the online Request Form to arrange our free of charge Site Survey.
- [Obstacles? What obstacles?](#)

Whether you need to traverse a ditch, moat or raging torrent, TPA can overcome your obstacles.
- [TPA: The Heavyweight](#)

Our range of bridges can span 20 metres, and can be configured to carry a variety of plant and machinery.
- [TPA: Dashing the Load](#)

TPA work with your team to engineer a bridge suitable for your needs, whether its transporting a crane, car or people.
- [TPA - Bridges & Walkways](#)

TPA Bridge Systems provide multi-functionality allowing a build combination to be tailored to your needs.

For further information or to arrange a free Site Survey, contact the TPA Help Desk on 0870 240 2381, or email us at enquiries@tpa-ltd.co.uk
