

Service

TPA's team of experienced Field Sales Engineers know only too well that ground conditions as well as the weather are subject to change and for this reason we encourage a site survey prior to your installation. This enables us to visit the site, offer advice on ground protection, access routes, and any environmental issues that may need to be considered.

Following this free, no obligation survey, you will receive a detailed Site Plan outlining the proposed solution, detailed quote, and site specific Risk Assessment. Your TPA sales engineer will be available to answer any queries you may have, prior to passing the project to our qualified operations team. Our experienced office personnel, are at the end of the telephone 24/7/365.

Our service package also includes:

- All accessories such as height restrictors, rigger mats, PVC mats, sand bags and speed restriction/warning signs at no extra cost.
- Innovative features such as 'steerable' diversion panels, camber panels, cable ducts and speed ramps.
- Delivery, installation and recovery by experienced and courteous crews.

TPA can respond to your instructions within 5 working days and can normally respond to emergency situations immediately. We welcome the opportunity of being involved at the planning stage for major contracts, where our experience can sometimes prove invaluable in providing alternative and innovative solutions.

TPA's main depot in Worksop is supported by a network of other depots including bases in London and Lanarkshire, Scotland; ensuring TPA is ideally placed to service the entire UK as well as mainland Europe using its fleet of specialist installation and recovery vehicles.

We believe strongly in working in partnership with our customers and are happy to be benchmarked against Performance, Quality, Health and Safety and Environmental Key Performance Indicators.
